Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

- 1) Claims 1 and 8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1 as amended refers to “centerers extending solely from said longitudinal portion” and albeit that the language overcomes the prior art there is no support for the limitation in the specification. Therefore this amended language is viewed entirely as new subject matter. The same goes for claim 8 which refers to a limitation regarding the centerers being comprised of springs, but this language could not be found nor ascertained from the specification.

Claim Objections

- 2) Claims 2-9 are objected to because of the following informalities: They are a set of dependent claims that stem from a rejected independent claim 1.

Appropriate correction is required.

Response to Arguments

3) Applicant's arguments filed 6/27/06 have been fully considered but they are not persuasive. Examiner respectfully notes the amended claims overcome the current prior art put forth in the rejection. However these amendments lack support from the specification and is therefore viewed as new matter. Thus the rejection stands unless support is shown in the specification for these amendments.

Conclusion

4) Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will

be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
